

Dogman / Rigger / Structural Steel Installer

Stevens Structural Pty Ltd

Calling on all current trades and young people starting their career journey! Whether it's a career change or your first opportunity in the industry, Stevens has something tailored for you.

Do you want to build steel structures for schools, factories, warehouses, stadiums, or residential homes? As a **Rigger, Dogman, or Structural Steel Installer**, you'll play a key role in assembling and securing these structures on construction sites. Using cranes, ropes, and specialised tools, you'll lift, position, and fix steel components safely and accurately. It's a hands-on role that values teamwork, attention to detail, and a strong commitment to safety – perfect for those looking to start or grow their career in construction.

Experience in **Carpentry, Formwork, Concreting, Civil Work, Bricklaying** or similar trades will be a great advantage to your progression in the role. If you're unsure whether this position is right for you, send through your resume – we'd be glad to arrange a personal interview to discuss further.

About the company

Stevens Group Adelaide provides structural steel services to residential and commercial clients. We are involved in most of Adelaide's leading construction projects. We have a professional approach to building excellence and a long history of customer satisfaction. Stevens Group provides clients with a self-directed service that covers everything from initial estimating and drafting to fabrication, professional coating systems, and installation by our experienced in-house erection teams.

We have been successfully participating in the Adelaide market for over 20 years and have established many strong working relationships within the construction industry. Stevens Group is one of the most respected Structural Steel providers in South Australia and that is no accident.

We are looking for Experienced and New starters to the trade
