Your guide to **subject and pathways selection** planning

SUBJECT & PATHWAYS SELECTION TIMELINE

SUBJECT & PATHWAYS SELECTION PROCESS

Acceptance into courses:

- To move from Year 9 to 10, Year 10 to Stage 1 and from Stage 1 to Stage 2, specific subject recommendations exist.
- Access to courses is determined by past performance based on semester results and examination results, not by perceived or implied potential.
- A place in a subject is earned by demonstrating the necessary background that includes:
 - Academic achievement, i.e. required levels of performance in current studies
 - Organisational skills (planning, completion of work, submission of work by the due date)
 - Fulfilment of expectations (application, attendance, punctuality, homework)
- Overall standard of work will be taken into account in the subject selection and subject approval process.
- Access to VET courses is dependent on a range of factors, including but not limited to availability, delivery site and fees.

TIPS FOR SUCCESS

Choose senior subjects and courses carefully as decisions may affect your success at school, your feelings about school and your level of preparedness or eligibility for training or tertiary study after school.

Before you select the course and subjects that you wish to choose:

- Understand the content and requirements and read subject descriptions in this Curriculum Handbook carefully
- Talk to your subject teachers, curriculum leaders and VET and Careers Counsellor
- Consider your results, career goals and interests and determine your academic and vocational strengths

Do NOT choose a subject or course:

- Because your friends are doing that subject or course
- On the basis of a teacher's reputation
- Because you think it might be easy

When planning your Tertiary Pathway, check:

- Prerequisites, assumed knowledge, precluded subject pairs, and preferred subjects should all be considered when planning for university entry. Entry requirements vary between institutions (refer to the SATAC Tertiary Entrance Booklet). Even if a course has no formal prerequisites or assumed knowledge, it is important to review the subject content of your preferred course. Studying related subjects at school will help build the knowledge and skills needed for success beyond school.
- TAFE preferred pathways, subject and employment experience/s & industry demands.

VET AT NAZARETH

VET stands for Vocational Education and Training and is formal training designed to give students skills for work, particularly in industry and trade professions. There are many opportunities for Nazareth students to participate in VET.

VET options are recognised towards the SACE, and this supports students to make significant progress towards completing VET qualifications at the same time as completing their SACE. Some completed VET certificates may help for some University or TAFE entry.

Nazareth students can access a range of VET courses across a variety of different industry areas. Nazareth works with a number of different training providers so students can pursue their individual pathway and interests.

Students who are offered an apprenticeship by an employer can undertake a school-based apprenticeship. The VET qualifications completed as part of this pathway contribute towards their SACE. Flexible timetable and SACE subjects at school form part of the students SACE and are negotiated on an individual basis.

CURRICULUM HANDBOOKS

MG COUNSELLING PROGRAM

- Students are involved in a subject counselling program.
- Students undergo a series of activities during MG classes to assist them with their subject selection.
- The MG teacher offers individualised counselling and support.
- Students also have the opportunity for further counselling during lunchtimes in weeks 3 and 4.

SUBJECT SELECTION PASSPORT

- It is like a rough copy for your selections, use it to guide research
- Must complete all sections before you start your EDVAL online form
- Must complete the Pathways interest section.
- Must have all recommendations completed.
- Must be signed by your parents
- Must be submitted to your MG teacher with your EDVAL form

2022 YEAR 12 SUBJECT & PATHWAYS PASSPORT

STUDENT NAME: _____

SUBJECT GROUP: _____

FIRST NAME: _____

MO. TEACHER: _____

Students enrolling into Year 12 are required to use this passport as a passport for any official meeting/subject selection process. The subject choices made by the students should also be structured in line with the SAC's requirements and subject offerings.

Students are encouraged to finalise their subject selections by referring to the Nanyang Baptist School Curriculum Handbook available at <https://www.nanyangbs.edu.sg/curriculum> and take into account the recommendations of their teachers, parents, and the SAC.

Please note that this Passport may not be able to offer all subjects if student enrolment does not create the course and the resource choice is not met.
